

FMCSA Clearinghouse Consent for Drug and Alcohol Limited Queries

A complete history of an employer's full and limited queries, including those conducted by a designated C/TPA, will be maintained in the Clearinghouse. This will include records of the driver's response to consent requests for any full queries conducted or initiated.

Employers will need to retain records of drivers' limited consent for 3 years. This does not have to be retained in the driver qualification file, but the employer must be able to provide evidence upon request.
